A variety of routes have been explored and marked out, each visiting different parts of the village, each having different 'characters' and covering a variety of distances. Some routes pass close to the schools of Kidlington and Gosford and some routes offer opportunities to create new spaces for play and adventure or rest and enjoy some tranquil time.

Four of the routes start and finish at Exeter Hall using this community hub as a unifying element and enabling routes to be tagged together and distances built up. This also provides parking for people travelling from outside the village. Other routes capture parts of the village that are further away from the centre. We would like to invite you to try out some or all of these routes and consider your assessment against a variety of criteria.
